All-season-use	■
Outdoor use	■

■ Included in delivery.

Users must receive training on this device.

Automatic coarse dirt flap

- Opens automatically for larger objects and closes again as quickly as possible.
- Guarantees ideal suction results with no residues.

Straight suction channel

- Minimises the risk of blockages.
- The suction tube between the suction mouth and the waste container can be extracted using two handles and with no need for tools.

Parallelogram guided brush system

- Pendulum-suspended sweeper mechanism with load relief and hydraulic floating position for constant contact pressure.
- Optimal sweeping results, even on uneven ground.
- Low fuel and water consumption and reduction of exhaust gas quantity and operating noise.
